This act is designed to protect the privacy of a student's educational records and the right of a student to his/her records. The Competencies

Through completion of the foundation and distribution courses listed above, and also through selected courses in their majors, students will be developing important competencies. Course offerings designed to meet each competency will be identified in the schedule of classes with a competency code attached to the course number. Students will be required to take courses with the following competencies:

- Critical Thinking (T): 3 courses
- Effective Communication (C): 2 courses
- Engaged Citizenship (Z): 3 courses
- Ethics (E): 1 course

Competencies are identified in the fourth component of the course number. For example, VART-136-01-**C** is an Art Appreciation course that meets the Effective Communication competency requirement. Some courses will not have a competency. For example, GEOG-331-01 is a Geography course that does not satisfy a competency requirement.

Reflective Modules

Reflective modules are co-curricular explorations that are designed to help students develop their skills as lifelong learners in structured learning environments outside of traditional classroom settings. Various foundational capacities and core competencies will be developed during these intensive experiences. These reflective modules set the foundation for students' understanding of the ways that what they learn in their education will be connected with all the experiences of their lives. Ideally, these reflective modules support student reflection on their development in curricular and co-curricular experiences.

- Four modules are required for graduation.
- All incoming freshmen take the freshmen experience module during their first semester of enrollment with the remaining three modules determined by the student
- Preferably the majority of modules are completed by the end of sophomore year
- For every 15 hours transferred in, one less module would be needed (hours earned from an institution of higher education, not AP, IB, or Dual Credit hours)
- Modules are offered during the fall and spring semesters and registration runs concurrently with class registration
- Modules run a maximum of 12 weeks and are assessed as Credit/No Credit

Reflective Module Descriptions

For more detailed information and a meeting schedule for each module, go to the myTLU portal and click on Student Life.
