# Reflective Modules

Reflective modules are co-curricular explorations that are designed to help students develop their skills as lifelong learners in structured learning environments outside of traditional classroom settings. Various foundational capacities and core competencies will be developed during these intensive experiences. These reflective modules set the foundation for students' understanding of the ways that what they learn in their education will be connected with all the experiences of their lives. Ideally, these reflective modules support student reflection on their development in curricular and co-curricular experiences.
