FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA)

This act is designed to protect the privacy of a student's educational records and the right of a student to his/her records. Compass Requirements

TLU's general education curriculum is called Compass. Compass has 3 parts: foundation courses, distribution courses, and competencies (and associated skills). Below are the requirements for each of the three areas.

The Foundations (18 hours)

- Basic Quantitative Literacy: MATH 130 or higher
- Critical Reading: FREX134
- Engaging Faith Traditions: THEO133
- Modern Language: Any modern language at the 131 level or higher
- Written Communication: COMP131 & COMP132

The Distributions (30 hours)

- Arts
6 hours from the following: ARTS130, DRAM, MUSI, VART
- Humanities & Culture
12 hours from the following: HUMA130, AFAM, COMM, ENGL, HIST, MAST, Modern Languages, PHIL, THEO, WOST
No more than 2 courses from any single discipline or from the modern languages can count toward this requirement.
- Natural Sciences & Math
6 hours from the following: NSCI 140, BIOL, CHEM, CSCI, ENVS, MATH, PHYS, STAT
At least one course must be a natural science course taken with a lab.
- Social Sciences
6 hours from the following: SSCI130, CRCJ, ECON, GEOG, POLS, PSYC, SOCI

The Competencies

Through completion of the foundation and distribution courses listed above, and also through selected courses in their majors, students will be developing important competencies. Course offerings designed to meet each competency will be identified in the schedule of classes with a competency code attached to the course number. Students will be required to take courses with the following competencies:

- Critical Thinking (T): 3 courses
- Effective Communication (C): 2 courses
- Engaged Citizenship (Z): 3 courses
- Ethics (E): 1 course

Competencies are identified in the fourth component of the course number. For example, VART-136-01-C is an Art Appreciation course that meets the Effective Communication competency requirement. Some courses will not have a competency. For example, GEOG-331-01 is a Geography course that does not satisfy a competency requirement.

Fall 2020 Reflective Modules

Reflective modules are co-curricular explorations that are designed to help students develop their skills as lifelong learners in structured learning environments outside of traditional classroom settings. Various foundational capacities and core competencies will be developed during these intensive experiences. These reflective modules set the foundation for students' understanding of the ways that what they learn in their education will be connected with all the experiences of their lives. Ideally, these reflective modules support student reflection on their development in curricular and co-curricular experiences.

For more detailed information and a meeting schedule for each module, go to the Student Life page of myTLU.

COCR 213.01 (SYN) Informal Science – Engaging a Diverse Audience with Science Fun T. Sauncy

This module supports the Global Citizenship competency.

Anyone who is considering an interest in TEACHING is strongly encouraged to take this module. The module is not just for those considering science teaching as a career option, but anyone who plans on spending their days with K-12 students! Those interested in SCIENCE TEACHING are especially encouraged to think about “trying it out” and presenting content in an informal, low stress setting. ANYONE can bring the excitement and fun of science to all kinds of audiences. In our diverse world, it is important to understand the cultural context in order to be most effective. In this module, you will learn the secrets behind effectively presenting complicated science topics to a diverse audience in an informal setting. You will explore how to best connect with the intended recipient of the lesson, and to overcome barriers that may exist due to background, culture, life experience or educational level. You will learn about the techniques used to engage non-scientists in the interesting and fun ideas of science, and how to most effectively communicate topics in STEM to the general public. We will focus on demonstrations, simulations and visual communication as a means of making intimidating STEM topics accessible to a wide range of age groups and educational levels.
